

Test Cases Exposing Application Defects

Automated Test Suite, Rolls: BSSE1443, BSSE1422
May 27, 2025

Introduction

This document outlines test cases from the automated test suite that expose defects or bugs in the application. Each test case is presented in a table format, detailing the test scenario, page, action description, expected result, and actual result. The test cases are derived from the JUnit test files and are organized in the following order: SignUp Page, Login Page, Dashboard Page, and List Page.

SignUp Page Test Cases Exposing Defects
